ECZEMA ON EAR

I suffered from Eczema on the right ear. I could hardly keep my hands off it, the itching was so severe. Small bubbles would open, emitting a watery-like substance, apparently poisonous. One of the leading doctors here treated me, and applied the usual physician's remedies without benefit. My brother recommended that I try CUTICURA. The *first application was soothing*, and before the box was *half gone the disease had disappeared*.

WILL TAKE A WEEK.

That Long Before a Peace Treaty is Signed.

Work of Drafting Document Now in Progress.

Secretaries of Commissions Have Much to Do.

No Joint Session Held Today Because Secretaries' Work Was Not Ready--Merritt to Return.

PARIS, Dec. 1.—The work of the peace commissions is proceeding rapidly and unless there is an unexpected hitch, the treaty will be signed within a week.

The peace commissions did not hold a joint session today owing to the fact that it was ascertained at 2 p. m. that the preliminary clerical work was not completed. It was therefore agreed by the president's to defer the next meeting until 2 o'clock tomorrow afternoon.

Gen. Wesley Merritt, who arrived here yesterday from London, leaving his wife convalescent there, was in consultation with the American commission all this morning, relative to the conditions and necessary measures in the Philippine Islands.

General Merritt expects to sail for New York on December 10th, and hopes to resume his duties in California or New York, until his retirement, eighteen months' hence.

Major Hale, of General Merritt's staff, who is now here, believes the United States, having taken the Philippine islands, will now have no trouble in securing the release of the Spanish who are held prisoners by Aguinaldo.

PETITION FOR REFORMS.

LONDON, Dec. 1.—A special dispatch from Madrid says a delegation from the Spanish chamber of commerce has had an audience with the queen regent and presented to her majesty a petition in favor of reforms.

The delegation also asked the queen regent to intercede for the release of the Spanish prisoners in the Philippine islands and to pardon the Filipinos who have been transported to Spain.

THE END OF IT.

United States of Central America Dissolved.

Washington Government Officially Advised of the End of the Recently Formed Coalition.

WASHINGTON, Dec. 1.—The dissolution of the United States of Central America, after a national existence of less than a month, is announced in a dispatch received by one of the highest officials of Central America today. It states that the success of the revolution in Salvador and the overthrow of President Gutierrez led to a meeting of the three commissioners who formed the executive head of the union until a president was elected, and a decision reached to abandon the union, leaving each of the three states forming it—Nicaragua, Salvador and Honduras—to resume its former status as an independent sovereign nation.

When the union was formed on November 1st last, Messrs. Galligos, Mathus and Ugarte were placed in charge until the presidential election was held this month. It is this executive commission which has now determined to abandon the plan of a union.

In addition to the foregoing dispatch the state department has been advised through Minister Merry, and also through one of our consular officers, that the uprising in Salvador had been successful, and that peace had been restored after much disorder.

As a result of the collapse of the union, Messrs. Zayala, Bonilla and Regala lo become the executive heads of their several countries. It is understood that this condition is much preferred by the government of the United States, which would rather deal directly with Nicaragua and the other countries than with an anomalous union.

Leading Central American officials said today that on the ruins of this attempt at a union might be built a more substantial union, embracing all five of the states of Central America.

The absence of Costa Rica and Guatemala from this last attempt at union operated largely toward its failure.

Senor Corea, charge of the three countries in the union, was at the state department today making anxious inquiries. He cabled for information and was looking for full reports on the status of affairs.

HIS HEAD'S OFF.

Lot Sharp Has Been Removed From the Police Force.

Violated One of the Rules of the Department and Lost His Job--Lon Laughlin Succeeds Him.

Lot Sharp, one of the most competent patrolmen on the police force, was "fired" by the board of public safety, which met in special session last evening.

It has been known for some time that certain persons were determined to have Sharp discharged and his removal is not a surprise to the initiated. Rumors came to the mayor that he had been loitering about the engine house on Broadway, and Sergeants Harkenrider and Stevens were detailed to watch him. Finally on Tuesday evening Sharp was seen to enter the engine house at 10:45 and he stayed there talking to one of the firemen until 11:55 o'clock. A few minutes later he again visited the engine house and remained forty-five minutes. The evidence was turned into Superintendent Gorsline who filed charges against the officer and last night he had a hearing. Sharp acknowledged that he visited the place of evenings to get warm. Generally the firemen were asleep, but of Tuesday evening one of them was suffering with a felon on his finger and the officer says he remained with him to gossip. The board voted to discharge him, and this morning Sharp called at the superintendent's office and turned over his keys, whistle and star. He received an even month's pay this morning.

Afterward the board elected John Laughlin to succeed Sharp. Laughlin is at present engineer at the jail, but for several months has been filling John Ryan's place as merchant policeman. He was hostler at the jail during Sheriff Clausmeier's administration.

Lot Sharp had been on the police force about four years having been appointed as a democrat during the administration of Mayor Oakley. He was sober, attentive to his duties and at all times obeyed orders. It is generally conceded that his violations of rules were less frequent and glaring than the violations of some other officers, but his "pull" was not exactly of the right sort to please the powers that be. If Mayor Scherer has started out to enforce the rules of the police department there will be many other policemen's head in the basket before the new year rolls round.

A down-town saloonkeeper has declared that he will have the job of an officer who was compelled to arrest him for violation of the liquor law some weeks ago. Only yesterday this saloonkeeper visited business men with whom this officer has running accounts and tried to induce them to turn the accounts over to him (the saloonkeeper), so that he might present them to the board of safety and have the officer "fired." The saloonkeeper violated the law and paid a fine for it, and if the Nicholson law were enforced to the letter would soon be compelled to go out of business.

BOARD OF WORKS.

The board of works at the regular meeting this evening will act on a petition for the vacation of a part of Cleveland avenue. The Wayne Knitting company has asked that the street be vacated so that they can build an addition to their mills nearer the Nickel Plate railway. In return for the vacation of the street the company agrees to deed to the city two lots north of Cleveland avenue.

Remonstrances will be heard to the acceptance of the following work and assessment rolls: Pavement of Clinton street, from Superior street to the Nickel Plate railway; brick sidewalk on the south side of Wayne street, from Walton to Glasgow avenue; brick sidewalk on the east side of Oneida street, from Rivermet to Edgewater avenue; grading of Poplar street and sidewalks on both sides thereof, from Fox avenue to the first alley east.

NO FAVOR FOR QUAY

Must Stand Trial Like a Common Citizen.

Motion to Quash Indictments is Overruled.

Trial of the Case to Begin Next Tuesday.

Judge Finletter Says He Will Treat the Case Like an Ordinary Criminal Proceeding.

PHILADELPHIA, Dec. 1.—Judge Finletter, in the court of quarter sessions today, overruled all the motions of objection entered by defendants' counsel to the five indictments found by the grand jury against United States Senator M. S. Quay, his son, Richard R. Quay, and ex-State Treasurer Benjamin J. Haywood.

The defendants were not in court, but R. F. Shapley, their senior counsel, on announcement of the judge's decision, moved to instruct the clerk to enter pleas of not guilty. This being done, District Attorney Graham stated that the commonwealth was ready to proceed to the trial at once and asked the court to fix an early date for the trial.

Mr. Shapley stated that the books and accounts presented at the magistrate's hearing were voluminous. These matters of evidence he and his colleague had not had an opportunity to examine. They desired to have an expert go over these accounts carefully before they would be ready to combat the allegations of the commonwealth and he asked that a date not earlier than December 12th be fixed. He said furthermore that his colleague, E. A. Shield, had a case in the United States court Monday next, which would probably occupy his time several days. He would therefore be obliged to conduct this trial alone should the date be fixed for next week.

Judge Finletter in reply to Mr. Shapley stated that he would treat this case as that of any other ordinary criminal proceeding on the docket and he could not therefore grant the time asked for by defendants' counsel.

He had intended fixing Monday next as the date for the trial, but in deference to Mr. Shield's professional engagement on that day, he would appoint the following day, Tuesday, December 6, for the opening of the trial.

He stated that he considered that ample time for counsel to prepare their defense.

Four of the five bills of indictment found by the grand jury charged the defendants with conspiracy to misuse the funds of the state on deposit in the People's bank, for their own benefit and profit, and the fifth indictment charged Benjamin J. Haywood with illegally loaning $100,000 of the state funds, over which he had control. Demurrers were entered by defendants' counsel last week to the first four indictments but Judge Finletter today declared these demurrers not sustained. A motion to quash the fifth indictment was also overruled by the judge.

HACKED TO PIECES.

The Frightful Revenge of an Angry Lover.

Don Perrier Murders His Former Sweetheart and Mutilates Her Body at New Westminster, B. C.

NEW WESTMINSTER, B C., Dec. 1.—Don Perrier, a young Frenchman, brutally murdered his former sweetheart, Jennie Andrews, an English girl, here last night. He shadowed her to a place known as the Green house and was shown to her room. He entered and locked the door. The inmates of the house heard a piercing shriek and attempted to force the door. Perrier called from inside:

"I've not quite done the job; just a moment."

Then the door was thrown open by the Frenchman, who was covered with blood from head to foot. Waving his hand, in which he held a dripping knife, he invited the women to enter.

Jennie Andrews was lying on the bed literally cut to pieces, the murderer having deliberately mutilated the girl's body after life was extinct. It is said that he first met the girl in Australia. She discarded him and crossed the ocean to marry another man who refused to keep his promise and she drifted into evil ways.

Perrier is a sailor, but is well educated and is reported to belong to an aristocratic family.

STEAMER LOST.

Klondike Vessel Goes Down in a Storm.

Her Boats Were Swamped by Fear-Crazed Italians Who Leaped in and Overloaded Them.

NELSON, B. C., Dec. 1.—The Ainsworth, a small steamer plying between Nelson and Bonner's Ferry, was wrecked Tuesday night during a storm on Kootenai lake, six of her crew and three passengers being drowned.

BOATS WERE SWAMPED.

SPOKANE, Wash., Dec. 1.—A Nelson special to the Spokesman-Review, gives further particulars of the wreck of the Ainsworth as follows:

The starboard life boat was first launched. Six passengers sprang into it and it was swamped. All went down but Johnson, who divested himself of his overcoat and got on board again. The port boat was next launched but the maddened Italians jumped in and it was swamped.

Four of the Italians were drowned. The others were saved. This boat subsequently righted and a part of the survivors got into it and paddled two miles to shore. There a bonfire was lighted and the boat returned and brought off seven men clinging to the ropes. A third trip brought the remainder of the passengers ashore. All the wrecked party were taken to Pilot Bay and the Kokane brought them to Nelson. The Ainsworth is a wreck half beached at Crawford Bay. At the time of the disaster she carried nineteen passengers and a crew of twelve.

SHORTAGE IN GAS SUPPLY.

Cold Weather One Explanation, Trick of Indiana Companies Another.

MARION, Ind., Dec. 1.—The recent cold snap has caused the use of coal and wood by many towns which for ten years have not known what it was to burn anything but gas. Especially is this true in towns to which the gas is piped for a distance of from twenty to fifty miles.

At Wabash, Logansport, Peru, Fort Wayne and Indianapolis a great cry has gone up on account of the inconvenience caused by the shortage of gas. Even in the gas towns proper—Anderson, Muncie, Marion and Kokomo—there has undoubtedly been a shrinkage. At Anderson and in Marion, though, the local shrinkage was chiefly due to the companies not being prepared for extreme cold weather.

They are now working night and day connecting new wells with the mains. Citizen companies and mutual organizations have had little difficulty with the supply, as they prepare new wells in the summer for the next winter.

The oil waste at Alexandria and other points in the gas belt has certainly weakened the gas pressure, but those who have been watching the supply each year cannot figure out how such a slump in pressure could result in such a short time. State Gas Inspector Leach, who has made a careful inspection of the entire field, says he feels sure Indiana will have plenty of gas for many years to come. This fact leads many to think the recent shortage is a shrewd game of certain gas companies to raise the price to their consumers when the new contracts are made the first of the coming year.

BIG FIRE IN NEW YORK.

Snow in the Streets Delayed the Arrival of the Engines.

NEW YORK, Dec. 1.—The seven story granite building at Wooster and Third streets was destroyed by fire today, causing an aggregate loss of $185,000. There was much delay in getting the fire engines to the scene of the conflagration owing to the snow in the streets, and when, finally they did arrive, the flames had gained such a hold upon the building that little could be done except to prevent their spread to adjacent buildings.

While the building was burning a heavy explosion occurred in it, from what cause is not known. The building was occupied by clothing and cap manufacturing concerns.

POLICE NEWS.

Four Men and One Woman in Court Today.

The Men Were Sent to Jail and the Woman Released--Lieutenant Lapp's Monthly Report.

When Mayor Scherer opened police court this morning he was confronted by a motley quintette. Among them was a woman who had been arrested for drunkenness by Officer Blume. She had visited Dr. Van Buskirk's office and raised a disturbance before the officer made the arrest. In court she gave the name of Mary Roberts and said it was her first offense. She commenced to cry and the mayor out of sympathy suspended sentence and released her. Afterward the police informed his honor that the woman had been in police court several times before.

Three drunks and one vagrant were sent to jail to serve the usual sentence.

BOY WAS NOT BAD.

John Gleason Tuesday evening told the police a story about a bad son of his who would not stay at home and the officers went to the lad's boarding house and arrested him. Yesterday morning the father was told to take the lad to his home near Geoglein, where his crippled mother and three brothers and sisters were awaiting his return. Instead the father took the son to a grocery store on Columbia street and went out and accumulated a "jag." Officer Knock ordered him to go home and he went without the boy. Superintendent Gorsline then made an investigation and found that the lad was earning $2 50 a week, out of which he paid $2 for board and gave the other fifty cents to help his mother. He was told to go back to work and hereafter the police will look after the father instead of the son.

FINE WINDOW DISPLAY.

The Mammoth Store of Rurode & Company Filled With Beautiful Attractions.

Judging by the large crowds hovering around the spacious show windows at the store of the Rurode Dry Goods company there is a magnetic influence in the display that is quite useless to attempt to evade. And who wouldn't stop long enough to feast the eyes on the scene there laid, for it contains much that is beautiful and impressive, as well as suggestive of comforts and luxuries of life.

What is shown on the outside is, however, but a small comparison to the magnificent view that is to be obtained within the store. The remodeled interior has something to please in every department and from the first floor to the roof the mammoth establishment is crowded to its limit with suitable things purchased by the firm with a view of catering to Christmas trade. This big store is going to do its share to help Fort Wayne enjoy the brightest, merriest Christmas it ever had.

BADLY BURNED.

Will Cromwell Seriously Injured by a Gas Explosion.

Was Examining a Gas Machine Which Was Out of Order When the Accident Occurred--Other Mishaps.

Information has been received of a distressing accident which befel Will Cromwell, a former Fort Wayne boy, and a son of J. W. Cromwell, the lumber dealer who has been at McBain, Mich., for a year or more. The young man is connected with the Mercantile Grocery company at that place and with a clerk in the store went into the cellar with a lantern to examine a gas machine which furnish illumination for the establishment. The machine refused to do its work properly and this led to the investigation.

While holding the lantern close to the machine escaping gas was ignited by the tiny flame and an explosion followed. Both were burned but Will received the worst injuries, his face and one hand being burned so badly that upon removing the first dressing the skin peeled off. It was feared at first that his eyesight would be lost, but careful examination by a competent physician has cleared away this dreaded prospect. At best the unfortunate victim will wear scars through his lifetime to remind him of his awful experience and narrow escape from death. The young man is still in a weak condition and is only able to take nourishment through a tube.

ARM FRACTURED.

The little daughter of Mr. and Mrs. John Smith, of Smith street, fell on the ice yesterday and sustained a fractured arm. Dr. Kesler reduced the fracture.

A NEW MINISTER.

Rev. Motschman Will Preach His Salutatory Next Sunday.

Was Called to the Pastorate of Christ's Evangelical Church--A Rising Young Divine.

Next Sunday the Christ's Evangelical Lutheran church will enter upon a new era of blessed work, as upon that day the new pastor, the Rev. L. P. Motschman, will enter upon the duties of the pastorate.

The Rev. Motschman comes from Beatrice, Neb, where he served a large congregation for several years. The reverend gentleman is a native of Illinois and reared on a prairie farm. He attended Mt. Morris college for some time. In 1883 he entered Carthage seminary at Carthage, Ill., from which institution he graduated in 1890. He entered the Wittenberg Theological seminary at Springfield, Ohio, soon after, where he continued his studies for two years, but, before completing the full course of studies at the seminary, he went to Germany to attend a course of lectures in the theological department of the universities of Berlin and Leipsic. After completing his theological course he returned to this country and entered the ministry. The first charge served was that of First Trinity, Grand Island, Neb., from this place he was called to Beatrice, Neb. He was laboring here when the Christ's Evangelical Lutheran church of this city, invited him to visit the congregation. He gave such general satisfaction that a congregational meeting and held and an unanimous call was given him. After due consideration the call has been accepted, and he will enter upon his duties at once. Mr. Motschman is a young man with a future before him full of promise. The congregation of Christ's Evangelical Lutheran church, which he takes charge of, worships in a neat chapel, corner of Jefferson and Webster streets. The congregation is only six years old. It held its services some three years in the City Y. M. C. A. hall, and has occupied its own chapel since. Rev. Motschman follows the Rev. A. A. Hundley, who resigned last summer. Since that time the pastorate has been vacant.

The Steamers Chester and Manitoba Leave Savannah, Carrying Soldiers to Occupy the Island.

WASHINGTON, Dec. 1.—Major General Lee, commanding at Savannah, has telegraphed the war department as follows respecting the departure of the transports Manitoba and Chester today with troops aboard for Cuba:

"Manitoba with General Snyder and the Fourth Tennessee cleared here at 8:45 this morning. Chester with the Fifteenth infantry left her anchorage, six miles below the city, about the same hour and probably now on top of the sea sailing for Cuba. She might have been at the bottom of it if she had gone out the day she started. Panama is still here."

WILL CLOSE MILLS.

The New Tin Plate Trust Will Restrict Production.

CLEVELAND, Ohio, Dec. 1.—It was stated here today that orders have been issued by the newly formed tin plate combine closing down a large number of tin plate factories absorbed by the trust.

The Consolidated Tin Plate company is the name of the new organization. D. G. Reid is the president with headquarters in Chicago, where the general offices are located. W. T. Graham is the vice president with headquarters in Pittsburg.

It is understood all the mills absorbed will be transferred to the new concern December 15th and that orders have already been issued closing down many mills a week or ten days prior to that date. Prices on tin plate have been materially advanced within the past week.

F. J. E. Delagrange and bride, of Chicago, arrived in the city this afternoon for a few days' visit. Mr Delagrange was formerly a councilman of this city.

Assert They Were Brought Here Under Contract and Have Been Discharged --Other Court News.

P. B. Colerick and George Cummerow late this afternoon filed two suits against the Wayne Knitting Mills in which they ask for $1,000 damages for Clemens Kohlsdarf and Max Posen.

The complaints allege that in the month of August, this year, Carl Schlatter, representing the Wayne Knitting Mills, went to Germany and hired Kohlsdarf and Posean to come to Fort Wayne and operate machines, promising to pay their fare to America and give them wages of from $12 to $15 per week. A daughter of Kohlsdarf came with her father and was given employment.

The men arrived here on August 13 and were put to work. In little more than a week they were discharged and the complaint says the management of the knitting mills offered each $6 in full payment for their labor.

It further alleges that the proprietors of the knitting mills declined to pay the fare of the men back to Germany, although they had promised to do so should they at any time become dissatisfied with their jobs.

The suits are brought to recover the amount of wages and expenses and damages in the sum of $1,000. Mr. Colerick says that if the plaintiffs are successful in the cases several more may be filed.

KEELY'S WILL.

The Motor Inventor Says Nothing About His Motor.

PHILADELPHIA, Pa, Dec. 1.—The will of the late John W. Keely, the inventor, was admitted to probate today. It bequeaths the entire estate, which has a value of about $10,000, to the widow and also appoints her executrix.

No reference is made in the will to the mysterious motor upon which Keely had been working for so many years. The absence of mention of the motor in the will was a disappointment to the stockholders of the Keely Motor company.

They must now await the plasure of Mrs. Keely for an explanation of the motor, there being generally entertained a belief that the inventor imparted to his wife information the mystery of which will be of value to the motor company.

SPAIN is being confronted by the friendly assurances of the powers that she is better off without islands and colonies and navies and such things.

A PHYSICIAN of Marseilles has discovered a serum which he claims is an antedote for snake-bite. This savant is tardy with his discovery. There is not a colonel in Kentucky who has not known and a thousand times applied the only snake-bite specific know to science.

THE Beveridge senatorial boom has more the appearance of a course of training for the brilliant young Indianapolis lawyer to succeed Senator Fairbanks than a genuine effort to elect him as Turpie's successor. Politicians do not imagine that it will be possible to elect a second Indianapolis man to the senate.

THE Banner, an independent newspaper published at Hudson, says: "Jimmie Robinson is a runner," and adds: "A Hudson democrat nominates Lim for governor in 1900." To this the Angola Herald subjoins this comment: "If Jimmie could lead his party in the state as he has in this congressional district, he'd land high and dry. Who knows what is in store for our representative?"

IF THE report is true that the Emperor Menelik, of Abyssinia, is moving with an army of 100,000 men toward the Bahr el-Ghazal country in Africa it may mean a lively time for the British-Egyptians now in the Soudan. Those Abyssinians are famous fighting men, and if they are bent on making trouble there will be a particularly hot time in that section of the tropics.

THE Cook county grand jury has just returned a huge grist of indictments against gamblers, saloonkeepers, keepers of disorderly houses, operators of slot-machines, and the like in Chicago. Prosecutions will follow and if it is possible to prevent the gambling element of that city from packing all the juries there should be a fair percentage of convictions. This is a suggestion for Fort Wayne. Prosecutor Doughman and the grand jury can do what the mayor will not do toward the suppression of gambling and that kind of prosecution can be made so costly to violators of the law that even the enormous profits of the lawless business cannot keep the heads of the gamblers above water.

AN effort will be made by persons interested in lake transportation to have the Anglo-American commission, now holding its sessions in Washington, to take up the project for a canal joining the great lakes and the Atlantic. This project has been favorably reported upon by a deputy waterway commission authorized by congress and appointed by the president. While this established the practicability of the canal, the present movement contemplates the devising by the Anglo-American commission of a plan of joint action by which work will be actually begun. The proposed route would be by way of the St. Lawrence river and Lake Champlain, a cut of twenty-nine miles being sufficient, it is said, for that link in the canal. Another cut of twenty-four miles would carry the canal to the Hudson river, thus connecting the shipping of Chicago and New York by way of the lakes, Welland canal, St. Lawrence river, Lake Champlain and Hudson river. The projectors of this movement say the cut from the St. Lawrence to Lake Champlain can be made for three or four millions, as the topography is most favorable for canal digging.

THERE is something grotesque in the disruption of the "United States of Central America," recently formed by a coalition of Nicaragua, Honduras and Salvador. The federal organizers have formally declared the union dissolved. This was brought about by the refusal of the troops of Honduras to assist in the suppression of an outbreak in Salvador designed to defeat that republic's intended jointure to the federation. That the republics of Central America, never without internal dissensions and never at peace among themselves, could so far forego the pasttime of revolution, fighting, usurping and killing as to successfully create an amalgamated state, no one and least of all themselves has ever believed. To add picturesqueness to the sudden collapse of the coalition the dispatches announce that General Regalado, the head of the revolutionary movement in Salvador, has usurped the presidency and proclaimed himself the head of the republic. Gutierrez, the deposed president of Salvador, is absent from the seat of government, which partly accounts for the success of the revolution. When he returns it is likely he will oust Regalado. Revolutions and usurpations are as common as bull-fights in Central America and have a sort of standing as the national sport.

WANT HATS OFF IN CHURCH.

Pastor of Muncie Begins a Crusade Against Women's Headgear.

MUNCIE, Ind., Dec. 1.—A few months ago Rev. Leslie J. Naftzger, pastor of the High street Methodist Episcopal church, the leading religious society in Muncie, introduced the idea of women removing their hats in his church as soon as the scriptural lesson was read. For a few weeks there was not one bit of millinery to be seen in the church, but it lasted only a month, and for three weeks past the women in many instances have failed to remove their hats.

The pastor announced that the rule was being violated again and requested that the church board meet with him to discuss the matter further. Last evening it was decided to prosecute the movement, and a second and a pointed request will be read at the meeting next Sunday morning, and at each subsequent meeting, when women present fail to remove their hats. The congregation has 1,500 members.

The Elks' Charity Minstrels to be Given December 16.

Fifty Performers—Memorial Services—Happenings in Fraternal Circles the Past Week.

The event of the month will be the charity minstrels to be given by the Fort Wayne Elks at the lodge auditorium on Friday evening, December 16th. Manager Heilbroner, under whose skilled hand the artists are to be brought into line, says there will be fifty performers and the program of specialties and general features will be replete enough to satisfy the most exacting critic. For an amateur performance it will be simply "out of sight." The best of it is, the Elks themselves pay the freight and the audience will not be charged admission. No Elk will be allowed to act unless he first deposits a $5 bill. The $250 raised in this manner will be given to charitable institutions and to the Daily News Christmas fund. The public will be invited by special invitation. The members will arrange to give their brother acting Elks a social session and banquet after the performance, which affair will be conducted on a broad plane of congeniality. At this session there will be no fines. Mr. Heilbroner expects to have his committees appointed and the program completed in a few days.

WHAT THE POOR COST.

Indiana Expended $375,000 and Relieved 75,000 People During the Past Year.

For the first time in the history of their organization the state board of charities have received reports from all the township trustees of the state, covering the business done by these officials during the past year. The following statement, issued by the board yesterday, is therefore the first complete report concerning expenditures for charities ever prepared in the state. In dealing with the statistics the state board makes use of the term "outdoor poor relief" in order to distinguish the assistance given to families and persons living in their homes from that extended to inmates of institutions.

The total number of people aided during the year was 75,119, and the township trustees distributed poor relief to the amount of $375,206.92. Last year's report showed that 82,235 were aided at a cost of $388,343.67. This shows a decrease of 7,116 persons who were recipients of aid, and a lessening in expenditure of $13,136.75. The necessary expenses imposed upon the township trustees by reason of the truancy law is a new feature. The assistance given children in this state, in order that they might attend school amounted to $15,805, a large part of which was borne by township trustees. From what is known of the unreported facts of last year it is supposed that the aid omitted in the reports for that period would amount to $10,000. The total saving will amount to nearly $6,000, which the state board believes will more that pay the entire expense of operating the truancy law in this state.

The figures given for last year show that one person in twenty-nine throughout the state receive relief, and that the average amount of aid given to each person was $5. This help was given 36,509 males and 39,610 females. Of the males 14,852 were above the age of twenty-one years. Aid was given to 16,015 families. Of those helped 3,380 were given "temporary aid," meaning for less than three months. A large number of those assisted received aid for more than a temporary period; 32,739 were aided three months or more at an expense of $288,319 52. Assistance was given to 70,442 white and to 4,676 colored persons. The occupation of 13,406 of those helped was given in the reports to the board, and of this number 9,447 were laborers, as distinguished from farmers, skilled tradesmen, clerks and office employes and the professions.

While going across a field he struck the barrel of his gun against a stump and the piece was discharged, the contents striking above the elbow. The arm had to be amputated.

Several days ago Max Bernstein, of Marion, was made defendant in a $10,000 damage suit for alleged alienation of the affections of Mrs. P. M Gillen. He appealed to the grand jury and Mrs. Gillen and George B. Mouser, attorney, were placed under bonds on an indictment, alleging attempted blackmail.

Among the suits already filed for trial at the next term of the DeKalb circuit court is one against Mrs. H. N. Coffinberry and John Yarde, administrator of the Coffinberry estate, by Coffinberry's bondsmen to recover the amount they were compelled to pay into the DeKalb county treasury as a result of his defalcations. The suit promises to be warmly contested and very interesting when it comes to trial.

Members of the large and wealthy German Evangelical church, at Urbana, Wabash county, are involved in a bitter quarrel over the introduction of the doctrine of sanctification in the congregation. One minister, Rev. Stoops, has been removed because he refused to preach the doctrine, which is heretical to the Evangelical faith. A petition has just been sent in demanding the removal of Rev. Zechiel because he savagely attacks sanctification as hostile to the faith. The seeds of dissension were sown by a band of roaming missionaries styling themselves "the saints," who held camp meetings in the neighborhood.

Milo Meredith and Benjamin Kinerk have leased the plant of the Daily and Weekly Times, of Wabash, and it will be conducted in the future as a free silver organ. The Times is owned by Nelson G. Hunter, and in 1896 it bolted the nomination of Mr. Bryan and advocated the Palmer and Buckner ticket. After the defection of the Times the Star was established by local democrats, who stood by the Chicago nominee. Its publication continues.

A crusade against the liquor dealers of Goshen has been started by the church people and other good citizens of that town and half the preachers last Sunday preached from texts bearing on temperance and Sunday observance. A Goshenite acquired a twentieth century jag on Thanksgiving day and the good people were set to thinking. The city marshal has notified all saloon keepers that they must comply with the law by closing the doors and pulling up the screens on Sunday.

Wednesday, at Hanna, a small station on the Pennsylvania railroad, about fifteen miles east of Valparaiso, Henry Edwards committed suicide by shooting himself. Despondency and remorse moved him to the rash act. Last Sunday, while hunting with William Sheffer, of Hanna, Edwards accidentally shot and killed his companion, who died in his arms. Since then Edwards had been in a state of deep depression and Tuesday made an effort to take his life, but was prevented. Wednesday morning Edwards arose early and taking the gun with which he had killed Sheffer retired to a secluded spot and placing the muzzle of the gun in his mouth literally blew his head off.

Barrett Indicted for Murder.

ANDERSON, Ind., Dec. 1.—Indictments have been returned against Jesse D. Barrett for the murder of Frank McFall. Barrett went to Alexandria for the purpose of killing his man and shot him in his door. It is said that Barrett is insane over religion and thinks he is personally directed by God, receiving his instructions nightly, and that he committed the murder under this hallucination.

In the early days of the settlement of the Dakotas, the newspapers frequently contained stories of the hardships and sufferings and sometimes the death of the new settlers who were lost in the blizzards. The man or woman who is frozen to death in a winter's storm and dies of great sufferings, but they are mild compared with those daily borne by thousands of victims of that dread disease—consumption.

For centuries this relentless disease was considered incurable. It is now known to be distinctly curable. Dr. Pierce's Golden Medical Discovery cures 98 per cent. of all cases of consumption, bronchitis, asthma, laryngitis and diseases of the air-passages. It has stood the test for thirty years. It acts directly on the blood, nourishing it with the life-giving qualities of the food. It tears down old, half-dead tissues and builds up new ones in all parts of the body. Through the blood it acts directly on the lungs, driving out all impurities and disease germs. It soothes the cough, but facilitates expectoration. It deepens the breathing, supplying the system with life-giving oxygen. It stimulates the appetite, facilitates the flow of digestive juices, invigorates the liver and tones and builds up the nerves. It is the great blood-maker and flesh-builder. It does not make flabby flesh like cod liver oil, but firm, muscular, healthy tissues.

"I had been troubled with bronchitis for several years," writes Mrs. Orlin O'Hara, Box 114, Fergus Falls, Otter tail Co., Minn. "In the first place I had sore throat. I doctored with different doctors and took various medicines, but got no relief. I raised from my throat a sticky substance like the white of an egg. Could not sleep, and had made up my mind that I would not live through the winter. I took Dr. Pierce's Golden Medical Discovery and 'Favorite Prescription' alternately, and in a few days began to see that I was better. I took eight bottles. I have not felt as well in years."

The quick constipation-cure—Doctor Pierce's Pleasant Pellets. Never gripe. Accept no substitutes or imitations.

ELY'S CREAM BALM is a positive cure. Apply into the nostrils. It is quickly absorbed. 50 cents at Druggists or by mail; samples 10c. by mail. ELY BROTHERS, 56 Warren St., New York City.

CONSULTING A WOMAN.

Mrs. Pinkham's Advice Inspires Confidence and Hope.

Examination by a male physician is a hard trial to a delicately organized woman.

She puts it off as long as she dare, and is only driven to it by fear of cancer, polypus, or some dreadful ill.

Most frequently such a woman leaves

a physician's office where she has undergone a critical examination with an impression, more or less, of discouragement.

This condition of the mind destroys the effect of advice; and she grows worse rather than better. In consulting Mrs. Pinkham no hesitation need be felt, the story is told to a woman and is wholly confidential. Mrs. Pinkham's address is Lynn, Mass., she offers sick women her advice without charge.

Her intimate knowledge of women's troubles makes her letter of advice a wellspring of hope, and her wide experience and skill point the way to health.

"I suffered with ovarian trouble for seven years, and no doctor knew what was the matter with me. I had spells which would last for two days or more. I thought I would try Lydia E. Pinkham's Vegetable Compound. I have taken seven bottles of it, and am entirely cured."—MRS. JOHN FOREMAN, 26 N. Woodberry Ave., Baltimore, Md.

The above letter from Mrs. Foreman is only one of thousands.

SHOP AND RAIL.

More Concerning the Big Steel Rail Deal.

Second Largest Transaction in the History of the Country—An Old Shopman Retires to a Life of Ease.

Concerning the big deal in steel rails which was mentioned a few days ago in these columns, the Iron Trade Review says: "Excepting the memorable break in the rail pool in February of last year, no such tonnage of steel rail sales has been closed in a single week as that just booked by the manufacturers. It includes 50,000 tons to the Illinois Central, 75,000 tons to the Chicago and North western, 55,000 tons to the St. Paul, 25,000 tons to the Burlington and large orders to eastern and central systems. What has been booked and what is practically closed amounts to more than 500,000 tons, of which the bulk has been taken by Chicago and Pittsburg. The failure of the rail manufacturers to agree upon the selling company scheme was followed by a conference of the Carnegie Steel company, the Illinois Steel company and the Colorado Fuel and Iron company, as noted last week. An arrangement resulted which promises to have better holding powers than the gentlemen's agreement in force previous to September. The prices fixed are $17 Pittsburg, $18 Chicago and $20 Pueblo."

Got Tickets Under False Pretense.

A man dressed in the uniform of a soldier tried to get a half-fare ticket at the Pennsylvania ticket office from Cincinnati to Baltimore a few days ago and came to grief. A half-fare rate is given by the railroads to soldiers going home on a furlough. The people at the Pennsylvania ticket office did not think the man who wanted the ticket and presented his furlough, which was issued in the name of R. H. Williamson, was all right, and they sent for Captain Adams, the recruiting officer here, who could not say positively whether the man was really a soldier or a fraud. At any rate, the man had on his person furloughs issued in the names of R. H. Williamson, Second cavalry; Charles Rose, Second cavalry; George Thompson and William Rose, Tenth infantry, and two blank furloughs. The railroad people confiscated the furlough papers. The man admitted to a Pennsylvania detective that he had made more than $100 in Chicago getting tickets and disposing of them.

A Fireman's Frightful Experience.

A snake story is a little out of season, but THE SENTINEL reporter cannot refrain from repeating one that was related to him this morning. Dr. J. Sion Smith, of the Fort Wayne Iron works, this morning bought a large toy snake and took it to the works, where he placed it in front of the furnace during the absence of the fireman. He attached a thin thread to the snake's head, passed the cord over an overhead beam and then, with the other end in his hand, hid in the coal-bin. Pretty soon the fireman returned, but failed to see the snake until nearly upon it. Dr. Smith pulled the string and the reptile raised up as if to make an attack. At the same instant the fireman gave a yell that would make a Comanche turn green with envy and turned to flee. But the thread had caught upon the lace hooks of his shoe and the snake went along, flopping about his legs and driving him nearly wild with fright. Dr. Smith came to the fellow's rescue, but not until all the shop force had been attracted to the scene and were ready to participate in the laugh that followed. It was very funny to all, save the fireman.

Dynamo Shipments.

The Electric corporation today shipped a big dynamo to Wilkesbarre and in a few days will make an important shipment to Lancaster, Pa. Mr. Ruth the manager of the company for whom two large dynamos have just been built, is here today to witness a test of them. Other dynamos are being made ready to ship to other points as rapidly as possible, consistent with good work.

A Corpse Found.

Some Pennsylvania section men found a corpse of a man lying by the side of the railway tracks three and one-half miles west of Van Wert this morning. Coroner Cook was summoned, and after viewing the remains, had them removed to Van Wert, where they were identified as those of Frank McCoy, a citizen of that place. McCoy left Van Wert yesterday morning on a hunting expedition and it is supposed that he was killed by the cars last night while walking on the tracks or by falling from the train. He was a married man and, besides a widow, a son survives him.

Short of Rolling Stock.

The Pennsylvania and the Nickel Plate roads are short of power and cars. Yesterday the former road had six trains that were waiting for engines to move them, notwithstanding the fact that several engines from other branches where business is not so heavy were recently sent here to help out in the rush. Every engine belonging to the Nickel Plate is also in use and the crews are given to understand that they cannot lay off only in case of death, sickness to themselves or members of their family.

Henry Hille Resigns.

Last night, at the close of working hours, when Henry Hille picked up his dinner bucket and started for home, it was with the intention of never returning to the Wabash shops in the capacity of an employe, for he had given notice to the foreman that he wished to retire from the position that he has so long and so faithfully filled. Mr. Hille is a native of Germany. He left his home in that country as soon as he arrived at man's estate and came direct to this city. He applied for employment at the Wabash shops and was given a position as helper and in that capacity he worked continually thirty-two years and six months, with the exception of three months that he spent in Germany about three years ago. He has lived a frugal life and has a competency sufficient to keep him in ease the remaining years of his life.

W. E. Hunter, claim agent of the Pittsburg, returned to duty this morning. He had been visiting relatives and old friends in Richmond for a week.

Superintendent G. L. Potter left for Pittsburg last evening and Chief Clerk J. T. Leary, of the motive power department, returned home from the east last night.

Machinist W. O. Bassett, of the Pittsburg shops, is kept at home by the illness of Mrs. Bassett, who was taken worse yesterday. The lady has been ailing for the past year.

George M. Roberts, who has for many years represented the Pennsylvania lines as passenger agent in New England, is thought to be fatally ill at his home in Malden, Mass.

The convention of the Ohio Federation of Labor will be held at Zanesville next week, and one of the important matters to come up for consideration will be the employment of convict labor so as to least interfere with free labor.

On January 1 Assistant Traffic Manager Russell, of the Santa Fe, will transfer his office from Chicago to San Francisco. The change is looked upon in railroad circles as significant.

Yesterday's Indianapolis News contained the following item: "The town council at Sheridan met at midnight and awarded a waterworks franchise to Mr. Geiger, of Fort Wayne."

In the year ending June 30 wages on the roads of Iowa increased $923,449; during the year 32,540 cars were equipped with air brakes and automatic couplers, and thirty-seven miles of new railway was built.

F. Henkel, a car builder, who had a shin injured three weeks ago, is not getting along very well. It seems that the bone was injured and the accident, which at first appeared a mere trifle, is proving quite a serious affair.

General Manager C. M. Hays, of the Grand Trunk railroad system, says there is no truth in the story that it has made arrangements with Dr. Seward Webb for a lease of that part of the road situated between Massena and Howick.

Frank Fenkhauser, a car builder in the east shops, was struck on the cheek with a wrench handle and the bone laid bare for an inch or more. He was tightening a bolt when the wrench slipped off the nut with the foregoing result.

The Indiana and Lake Michigan division of the Vandalia lines will be sold at foreclosure sale on December 8. It is forty miles long, extending from South Bend to St. Joseph, and since operated has rarely paid its operating expenses.

The last of the 108 ore cars was turned out of the Pittsburg shops yesterday and the car builders are now devoting their attention to the order for gondolas. These ore cars are of 100,000 pounds capacity, the largest cars of their kind ever built west of the Alleghenys.

Master Mechanic G. S. McKee, of the Wabash, did not arrive last evening as expected, but it is understood he will come this evening, on No. 24, and will assume the duties of the office tomorrow morning. Mr. Doebler left last night for Springfield, his new field of labor.

Conductor Stack, of the Big Four, who fell under his train and was cut in two at Columbus, Ohio, Monday morning, had been in service on the Cleveland and Columbus divisions of the Big Four for over thirty years. He stepped from his train before it had stopped and fell under the wheels.

Engine 205, one of the large passenger engines of the Big Four, on Monday, hauling nine cars, ran from Indianapolis to Terre Haute, seventy-three miles, in eighty minutes, making two stops and running slow in the city limits at Indianapolis and at Terre Haute. This is the quickest time ever made by a train from Indianapolis to Terre Haute.

The consolidation of the Lake Shore shops goes merrily on, much to the grief of some of the towns affected. Today the forty men employed in the shops at Norfolk, Ohio, were ordered to move, half of them to Air Line Junction and the other half to Cleveland. A report is now in circulation that the shops at Adrian, Mich., will soon be closed and the workmen sent to the Air Line shops also.

On Saturday James Gray, a brakeman on the Lake Shore road, having received the $350,000 to which he was said to have fallen heir, notified the trainmaster that he guessed he would not go out on his regular run. In talking with an official of the road about the matter he is quoted as saying that he intended to invest a portion of the money in stock of the road he had worked for so many years.

Women and children are causing considerable annoyance to the officers and yard men of the various roads in the city by going about and gathering up the bits of coal that fall from cars and engines. At dusk yesterday three little girls were discovered thus engaged in the Nickel Plate yards and were sent home. It is not the value of the fuel these little ones get that makes the practice so objectionable; it is the danger they are exposed to while gathering it. If an accident should happen to the children, the yard men would be censured for allowing them to come there.

Ban on Secret Organizations is Not Removed.

Bishop Rademacher Addresses a Letter to the Catholic Record Making a Formal Denial.

The Rt. Rev. Bishop Rademacher has addressed a letter to the Catholic Record, of Laporte, in which he makes a formal denial of the report that a decree had been issued from Rome, removing the ban placed on secret organizations from membership in which Catholics are barred because of religious restrictions. The report had been given wide publicity and had aroused much interest. Bishop Rademacher says that the denial to the report is made by the Most Reverend Apostolic Delegate and Archbishop Elder, of Cincinnati.

MAY DROP FREE SILVER.

Indiana Democrats Said to be Talking of Dropping Mr. Bryan.

INDIANAPOLIS, Ind., Dec. 1.—A story that the democrats of this state were about to abandon free silver and W. J. Bryan caused the ways and means committee of the silver party to send Allen W. Clark from Chicago into the state to investigate the report.

It is said that while at West Baden Richard Croker, of New York, met some of the influential men in the democratic party of the state and intimated that if the state would drop Bryan and his principles and join hands with New York, Indiana might have second place on the national ticket in 1900.

Leon O. Bailey, recently defeated for congress in this district, is said to have carried on the negotiations between Croker and the representatives of the democratic organization. The gold democrats express a willingness to return whenever Bryan and free coinage are dropped.

Health of Troops is Better.

WASHINGTON, Dec. 1.—A great improvement in the health of the army has taken place within the last two months, as shown by the last reports to the surgeon general from the field and general hospitals. The hospitals at Chickamauga Park have been emptied and abandoned. The same is true of the division field hospitals at Camp Hamilton, Lexington, Ky., and Jacksonville, Fla.

ITS WEIGHT IN GOLD

A New Discovery Which is Worth That Much

To Anyone Afflicted With Piles.

The Pyramid Pile Cure, the new, painless remedy which has been so remarkably successful in curing every form of piles and rectal diseases, has recently been placed on sale at druggists and it is safe to say that when its extraordinary merit becomes fully known, there will be no such thing as surgical operations for the cure of this obstinate and common trouble.

Mrs. M. C. Hiakly, of 601 Mississippi street, Indianapolis, Ind., says: "I had been a terrible sufferer from piles for fifteen years and no remedies benefitted me, until I saw an advertisement of the Pyramid Pile Cure; I got a package, also a package of Pyramid Pills and used both according to directions. I was astonished at the immediate relief obtained and now I honestly believe the Pyramid to be the only certain cure for piles.

That you may realize how bad I was, I will say that I was confined to my bed and went before the college physicians here, who said my case was a new one to them and wanted seven or eight hundred dollars to undertake a cure; the great pain had brought on a rupture, and I knew an operation would be death to me on account of blood poisoning. Nearly every one here knows of my terrible suffering from piles, and I feel that I cannot praise the Pyramid Pile Cure enough, and the Pyramid Pills also. My husband will join me in highly recommending the Pyramid. My daughter was cured by one box only. For several years I weighed but about 90 pounds; now I weigh 150 and feel in perfect health.

This seems to be the universal testimony of every sufferer from piles who have ever tried the Pyramid; it is the safest, most painless pile cure yet discovered; contains no opiate, morphine, cocaine or any poisonous ingredient whatever, has a soothing, healing effect from the first application, and the moderate price places it within the reach of everyone needing treatment. The Pyramid Pile Cure is sold by druggists at 50 cents and $1 per package and the Pyramid Pills at 25 cents per box.

Send to Pyramid Co., Marshall, Mich., for free book on cause and cure of piles.

Hacking Cough Cured.

Ramon's Liver Pills & Tonic Pellets have permanently cured me of a troublesome disease that I had in my back, stomach and bowels, which was accompanied by a hacking cough. I was for a long time unable to get up when I was down; but now I am as well as anybody. I believe I would have been in my grave if I had not used them. I have sold them, for the last ten years. My customers will have no other. W. C. Embry, Embry, Ga. nov1

The gentlemen were loud in their praises of the new building.

Rt. Rev. Bishop Rademacher was at Peru yesterday the guest of Rev. Father Meismer, pastor of St. Charles church at that place. The birthday anniversary of the two reverend gentlemen fall on the same day and it is customary for them to celebrate the occasion by a dinner together, at which they entertain a few friends. Exchanging Microbes.

"About a year ago," remarks a gossip, "the congregation of one of our very well-known churches uptown adopted, after long and serious debate, the individual communion cups. The older members strenuously disapproved of the innovation, and even went so far a sto say that 'the Lord knew all about microbes, but when He was on earth the large cup was used.' However, the younger members, led by an aspiring young physician, triumphed, and the tiny cups made their appearance. Last Sunday happened to be the communion day, and now comes the tragic part of the tale, but it occurs not in public. The cups were collected, the few drops of wine left in them emptied into a pan, and, horror of horrors! the drops collectively turned back into the bottle, microbes and all. The question is, can this be a plan by which the old folks continue to have their own way and exchange their microbes, or is it simply economy?"—Philadelphia Record.

A Profane Nonchalance.

"I don't care anything for your nonchalance," remarked Judge Andy to Minnie Coleman, a woman who is always troubling the police with her perambulations on the streets after dark, "but you can't mix your indifference with public profanity. The officer says you walked down the street saying you don't care for anybody or anything and you prefixed all your 'don't cares' with a great big D." "Jedge Andy, I was only feeling tired ob de world," was Minnie's reply. "Dere am times, you know, when de best ob us gets blue and de ole airth loses all ob its pleasures. So last night I was in one ob dem rumors and maybe I did cuss a little." "The next time you feel like that," advised Judge Andy, "you go off into the woods and have it out all by yourself. It will cost you $3.75 this time for using the public streets as an arena to waste your surplus enervation."—Atlanta Constitution.

Curious Transference of Heat.

A correspondent of Nature, who is associated with the observatory at Toulouse, calls attention to a very singular phenomenon, the scientific explanation of which he seeks. Take a bar of iron in the hand by one end and plunge the other end in the fire, heating it strongly, but not so much that the hand cannot retain its hold. Then plunge the heated end in a pail of cold water. Immediately the end held by the hand becomes so hot that it is impossible to retain it in the fingers. This phenomenon, said by the correspondent to be familiar to workmen in iron, is ascribed by them to some repellant action which they suppose the sudden cold to exert upon the heat contained in the iron, which is thus driven to the opposite extremity.

North Pole and South Pole.

It has been shown that, while Nansen's observations prove that the north polar region is a great ocean cavity, nearly two miles deep, the south polar region, on the contrary, is apparently a vast solid mass of land, surrounded by a belt of water about two miles in depth. The area of the south polar continent is estimated to be about 4,000,000 square miles, 1,000,000 more than that of the United States, excluding Alaska.

WILL TAKE A WEEK.

That Long Before a Peace Treaty is Signed.

Work of Drafting Document Now in Progress.

Secretaries of Commissions Have Much to Do.

No Joint Session Held Today Because Secretaries' Work Was Not Ready—Merritt to Return.

PARIS, Dec. 1.—The work of the peace commissions is proceeding rapidly and unless there is an unexpected hitch, the treaty will be signed within a week.

The peace commissions did not hold a joint session today owing to the fact that it was ascertained at 2 p. m. that the preliminary clerical work was not completed.

Therefore, by the president's request to defer the next meeting until 2 o'clock tomorrow afternoon.

Gen. Wesley Merritt, who arrived here yesterday from London, leaving his wife convalescent there, was in consultation with the American commission all this morning, relative to the conditions and necessary measures in the Philippine Islands.

General Merritt expects to sail for New York on December 10th, and hopes to resume his duties in California or New York, until his retirement, eighteen months' leance.

Major Hale, of General Merritt's staff, who is now here, believes the United States, having taken the Philippine Islands, will now have no trouble in securing the release of the Spanish who are held prisoners by Aguinaldo.

PETITION FOR REFORMS.

LONDON, Dec. 1.—A special dispatch from Madrid says a delegation from the Spanish chamber of commerce has had an audience with the queen regent and presented to her majesty a petition in favor of reforms.

The delegation also asked the queen regent to intercede for the release of the Spanish prisoners in the Philippine Islands and to pardon the Filipinos who have been transported to Spain.

THE END OF IT.

United States of Central America Dissolved.

Washington Government Officially Advised of the End of the Recently Formed Confliction.

WASHINGTON, Dec. 1.—The dissolution of the United States of Central America, after a national existence of less than a month, is announced in a dispatch received by one of the highest officials of Central America today. It states that the success of the revolution in Salvador and the overthrow of President Gutierrez led to a meeting of the three commissioners who formed the executive head of the union until a president was elected, and a decision reached to abandon the union, leaving each of the three states forming it—Nicaragua, Salvador and Honduras—to resume its former status as an independent sovereign nation.

When the union was formed on November 1st last, Messrs. Galligos, Mathus and Ugarte were placed in charge until the presidential election was held this month. It is this executive commission which has now determined to abandon the plan of a union.

In addition to the foregoing dispatch the state department has been advised through Minister Merry, and also through one of our consular officers, that the uprising in Baldvador had been successful, and that peace had been restored after much disorder.

As a result of the collapse of the union, Messrs. Zayala, Bonilla and Regala to become the executive heads of their several countries. It is understood that this condition is much preferred by the governments of the United States, which would rather deal directly with Nicaragua and the other countries than with an anomalous union.

Leading Central American officials said today that on the ruins of this attempt at a union might be built a more substantial union, embracing all five of the states of Central America.

The absence of Costa Rica and Guatemala from this last attempt at union operated largely toward its failure.

Senor Corea, charge of the three countries in the union, was at the state department today making various inquiries. He cabled for information and was looking for full reports on the status of affairs.

HIS HEAD'S OFF.

Lot Sharp Has Been Removed From the Police Force.

Violated One of the Rules of the Department and Lost His Job—Lon Laughlin Succeeds Him.

Lot Sharp, one of the most competent patrolmen on the police force, was "fired" by the board of public safety, which met in special session last evening.

It has been known for some time that certain persons were determined to have Sharp discharged and his removal is not a surprise to the initiated. Rumors came to the mayor that he had been loitering about the engine house on Broadway, and Sergeants Harkenrider and Stevens were detailed to watch him. Finally on Tuesday evening Sharp was seen to enter the engine house at 10:45 and he stayed there talking to one of the firemen until 11:00 o'clock. A few minutes later he again visited the engine house and remained forty-five minutes. The evidence was turned into Superintendent Geralme who filed charges against the officer and last night he had a hearing. Sharp acknowledged that he visited the place of evenings to get warm. Generally the firemen were asleep, but of Tuesday evening one of them was suffering with a felon on his finger and the officer says he remained with him to gossip. The board voted to discharge him, and this morning Sharp called at the superintendent's office and turned over his keys, whistle and star. He received an even month's pay this morning.

Afterward the board elected John Laughlin to succeed Sharp. Laughlin is at present engineer at the jail, but for several months has been filling John Ryan's place at merchant policeman. He was brother at the jail during Sheriff Clausmeier's administration.

Lot Sharp had been on the police force about four years having been appointed as a democrat during the administration of Mayor Oakley. He was sober, attentive to his duties and at all times obeyed orders. It is generally conceded that the violations of rules were less trivial than those causing the violations of some other officers, but his "trail" was not exactly of the right sort to please the powers that be. If Mayor Scheerer has started out to enforce the rules of the police department there will be many other policemen to load in the basket before the new year rolls round.

A down-town saloonkeeper has declared that he will have the job of an officer who was compelled to arrest him for violation of the Sunday law and refuse bail. Only yesterday this saloonkeeper visited business men with whom this officer has running accounts and tried to induce them to turn the accounts over to him (the saloonkeeper), so that he might secure the vacation of the street the company agrees to flood to the city two lots north of Cleveland avenue.

Remonstrances will be heard to the acceptance of the following work and assessment rolls: Pavement of part of Cleveland avenue. The Wayne Knitting company has asked that the street be vacated so that they can build an addition to their mills nearer the Nickel Plate railway. In return for the vacation of the street the company agrees to flood to the city two lots north of Cleveland avenue.

BOARD OF WORKS.

The board of works at the regular meeting this evening will act on a petition for the improvement of part of Cleveland avenue. The Wayne Knitting company has asked that the street be vacated so that they can build an addition to their mills nearer the Nickel Plate railway. In return for the vacation of the street the company agrees to flood to the city two lots north of Cleveland avenue.

Remonstrances will be heard to the acceptance of the following work and assessment rolls: Pavement of part of Cleveland avenue. The Wayne Knitting company has asked that the street be vacated so that they can build an addition to their mills nearer the Nickel Plate railway; brick sidewalk on the south side of Wayne street, from Walton to Glasgow avenue; brick sidewalk on the east side of Oakley street, from Rivercrest to Edgewater avenue; grading of Poplar street and sidewalks on both sides thereof, from Fox avenue to the first alley east.

A GOOD MEETING.

Missionary Convention Being Held at St. Paul's M. E. Church.

A missionary convention is being held today at St. Paul's M. E. church. The attendance is large and the interest enthusiastic. A number of clergymen from outside the city are assisting Rev. M. O. Cooper and others of the Fort Wayne Methodist clergy.

Among the speakers today were Rev. W. A. Geistand, of Cossee; Rev. George Corking, of New Haven; Rev. Alex Bunner, of Woodburn; Rev. Sherman Powell, pastor of Trinity M. E. church, of Fort Wayne, and Rev. F. T. Simpson, of this city, presiding elder of this conference.

Tonight there will be a mission rally at St. Paul's church, at which Rev. W. D. Parr, of the Wayne street M. E. church, and Rev. Sherman Powell will speak. The public will be welcomed to the meeting.

Candy Factory Destroyed.

CANAJOHARIE, N. Y., Dec. 1.—The candy factory of the Peters Manufacturing company was destroyed by fire today. It is supposed that the fire was caused by an explosion in the chocolate room. The loss is $50,000.

NO FAVOR FOR QUAY

Must Stand Trial Like a Common Citizen.

Motion to Quash Indictments is Overruled.

Trial of the Case to Begin Next Tuesday.

Judge Finletter Says He Will Treat the Case Like an Ordinary Criminal Proceeding.

PHILADELPHIA, Dec. 1.—Judge Finletter, in the court of quarter sessions today, overruled all the motions of objection entered by defendants' counsel to the five indictments found by the grand jury against United States Senator M. S. Quay, his son, Richard R. Quay, and ex-State Treasurer Benjamin J. Haywood.

The defendants were not in court, but R. F. Shapley, their senior counsel, on announcement of the judge's decision, moved to instruct the clerk to enter pleas of not guilty. This being done, District Attorney Graham stated that the commonwealth was ready to proceed to the trial at once and asked the court to fix an early date for the trial.

Mr. Shapley stated that the books and accounts presented at the magistrate's hearing were voluminous. These matters of evidence he and his colleagues had not had an opportunity to examine. They desired to have an expert go over these accounts carefully before they would be ready to combat the allegations of the commonwealth and he asked that a date not earlier than December 12th be fixed. He said furthermore that his colleague, E. A. Shield, had a case in the United States court Monday next, which would probably occupy his time several days. He would therefore be obliged to conduct this trial alone should the date be fixed for next week.

Judge Finletter in reply to Mr. Shapley stated that he would treat this case as that of any other ordinary criminal proceeding on the docket and he could not therefore grant the time asked for by defendants' counsel.

He had intended fixing Monday next as the date for the trial, but in deference to Mr. Shield's professional engagement on that day, he would appoint the following day, Tuesday, December 6, for the opening of the trial.

He stated that he considered that ample time for counsel to prepare their defense.

Four of the five bills of indictment found by the grand jury charged the defendants with conspiracy to misuse the funds of the state on deposit in the People's bank, for their own benefit and profit, and the fifth indictment charged Benjamin J. Haywood with illegally loaning $100,000 of the state funds, over which he had control. Demurrers were entered by defendants' counsel last week to the first four indictments but Judge Finletter today declared these demurrers not sustained. A motion to quash the fifth indictment was also overruled by the judge.

HACKED TO PIECES.

The Frightful Revenge of an Angry Lover.

Dan Perrier Murders His Former Sweetheart and Mutilates Her Body at West Westminster, B. C.

NEW WESTMINSTER, B C., Dec. 1.—Dan Perrier, a young Frenchman, brutally murdered his former sweetheart, Jennie Andrews, an English girl, here last night. He shadowed her to a place known as the Green House and was shown to her room. He entered and locked the door. The inmates of the house heard a piercing shriek and attempted to force the door. Perrier called from inside:

"It's no use quite done the job; just a moment."

Then the door was thrown open by the Frenchman, who was covered with blood from head to foot. Waving his hand, in which he held a dripping knife, he invited the women to enter.

Jennie Andrews was lying on the bed literally cut to pieces, the murderer having deliberately mutilated the girl's body after life was extinct. It is said that he first met the girl in Australia. She discarded him and crossed the ocean to marry another man who refused to keep his promise and she drifted into evil ways.

Perrier is a sailor, but is well educated and is reported to belong to an aristocratic family.

STEAMER LOST.

Klondike Vessel Goes Down in a Storm.

Her Boats Were Swamped by Fear-Crazed Indians Who Leaped in and Overloaded Them.

NELSON, B. C., Dec. 1.—The Ainsworth, a small steamer plying between Nelson and Bonner's Ferry, was wrecked Tuesday night during a storm on Kootenai lake, six of her crew and three passengers being drowned.

BOATS WERE SWAMPED.

SPOKANE, Wash., Dec. 1.—A Nelson special to the Spokesman-Review, gives further particulars of the wreck of the Ainsworth as follows:

The starboard life boat was first launched. Six passengers sprang into it and it was swamped. All went down but Johnson, who divested himself of his overcoat and got on board again. The port boat was next launched but the mad doped Indians jumped in and it was swamped.

Four of the Indians were drowned. The others were saved. This boat subsequently righted and a part of the survivors got into it and paddled two miles to shore. There a bonfire was lighted and the boat repaired and brought off seven men clinging to the ropes. A third trip brought the remainder of the passengers ashore. All the wrecked party were taken to Pilot Bay and the Kuskonook brought them to Nelson. The Ainsworth is a wood hull beached at Crawford Bay. At the time of the disaster she carried nineteen passengers and a crew of twelve.

SHORTAGE IN GAS SUPPLY.

Cold Weather Now Experienced, Which at Indiana Developed Another.

MARION, Ind., Dec. 1.—The recent cold snap has caused the use of coal and wood by many towns which for ten years have not known what it was to burn anything but gas. Especially is this true of towns to which the gas is piped for a distance of from twenty to fifty miles.

At Wabash, Logansport, Peru, Fort Wayne and Indianapolis a great cry has gone up on account of the inconvenience caused by the short age of gas. Even in the gas towns proper—Anderson, Muncie, Marion and Kokomo—there has undoubtedly been a shrinkage. At Anderson and in Marion, though, the local companies are chiefly due to the companies not being prepared for extreme cold weather.

They are now working night and day connecting new wells with the mains. Citizen companies and mutual organizations have had little difficulty with the supply, as they prepare new wells in the summer for the next winter.

The oil waste at Alexandria and other points in the gas belt has certainly weakened the gas pressure, but that has not been vitally felt as the supply each year cannot figure out how such a slump in pressure could result in such a short time. State Gas Inspector Leach, who has made a careful inspection of the entire field, says the gas in Indiana will have plenty of gas for many years to come. This fact leads many to think the recent shortage is a shrewd game of certain gas companies to raise the price to their consumers when the new contracts are made the first of the coming year.

BIG FIRE IN NEW YORK.

Snow in the Streets Delayed the Arrival of the Engines.

NEW YORK, Dec. 1.—The seven story granite building at Wooster and Third streets was destroyed by fire today, causing an aggregate loss of $185,000. There was much delay in getting the fire engines to the scene of the conflagration owing to the snow in the streets, and when, finally they did arrive, the flames had gained such a hold upon the building that little could be done except to prevent their spread to adjacent buildings.

While the building was burning a heavy explosion occurred in it, from what cause is not known. The building was occupied by clothing and cap manufacturing concerns.

POLICE NEWS.

Four Men and One Woman in Court Today.

The Man Were Sent to Jail and the Woman Released—Lieutenant Lapp's Monthly Report.

When Mayor Scheerer opened police court this morning he was confronted by a motley quintette. Among them was a woman who had been arrested for drunkenness by Officer Blume. She had visited Dr. Van Buskirk's office and raised a disturbance before the officer made the arrest. In court she gave the name of Mary Hilbert and said it was her first offense. She guaranteed to cry and the mayor out of sympathy suspended sentence and released her. Afterward the police informed his honor that the woman had been in police court several times before.

Three drunks and one vagrant were sent to jail to serve the usual sentence.

BOY WAS NOT BAD.

John Gleason Tuesday evening told the police a story about a bad son of his who would not stay at home and the officers went to the lad's boarding house and arrested him. Yesterday morning the father was told to take the lad to his home near Goeglein, where his crippled mother and three brothers and sisters were awaiting his return. Instead the father took the son to a grocery store on Columbia street and went out and accumulated a "jag." Officer Knock ordered him to go home and he went without the boy. Superintendent Gorrilee then made an investigation and found that the lad was earning $2.50 a week, out of which he paid $2 for board and gave the other fifty cents to help his mother. He was told to go back to work and hereafter the police will look after the father instead of the son.

FINE WINDOW DISPLAY.

The Monmouth Store of Records & Company Filled With Beautiful Attractions.

Judging by the large crowds hovering around the spacious show windows at the store of the Rurodo Dry Goods company there is a magnetic influence in the display that is quite useless to attempt to evade. And who wouldn't stop long enough to feast the eyes on the scenes there laid, for it contains much that is beautiful and impressive, as well as suggestive of comforts and luxuries of life.

What is shown on the outside is, however, but a small comparison to the magnificent view that is to be obtained within the store. The remodeled interior has something to please in every department and from the first floor to the roof the mammoth establishment is crowded to its limit with suitable things purchased by the firm with a view of catering to Christmas trade. This big store is going to do its share to help Fort Wayne enjoy the brightest, merriest Christmas it ever had.

BADLY BURNED.

Will Cromwell Seriously Injured by a Gas Explosion.

Was Examining a Gas Machine Which Was Out of Order When the Accident Occurred—Other Mishaps.

Information has been received of a distressing accident which befell Will Cromwell, a former Fort Wayne boy, and a son of J. W. Cromwell, the lumber dealer who has been at Mullain, Mich., for a year or more. The young man is connected with the Mercantile Grocery company at that place and with a clerk in the store went into the cellar with a lantern to examine a gas machine which furnish illumination for the establishment. The machine refused to do its work properly and this led to the investigation.

While holding the lantern close to the machine escaping gas was ignited by the tiny flame and an explosion followed. Both were burned but Will received the worst injuries, his face and one hand being burned so badly that upon removing the first dressing the skin pulled off. It was feared at first that his eyesight would be lost, but careful examination by a competent physician has cleared away this dreaded prospect. At best the unfortunate victim will wear scars through his lifetime to remind him of his awful experience and narrow escape from death. The young man is still in a weak condition and is only able to take nourishment through a tube.

ARM FRACTURED.

The little daughter of Mr. and Mrs. John Smith, of South street, fell on the ice yesterday and sustained a fracture of the arm. Dr. Reser reduced the fracture.

A NEW MINISTER.

Rev. Motschman Will Preach His Salutatory Next Sunday.

Was Called in the Pastorate of Christ's Evangelical Church—A Rising Young Divine.

Next Sunday the Christ's Evangelical Lutheran church will enter upon a new era of blessed work, as upon that day the new pastor, the Rev. L. P. Motschman, will enter upon the duties of the pastorate.

The Rev. Motschman comes from Benitice, Neb., where he served a large congregation for several years. The reverend gentleman is a native of Illinois and reared on a prairie farm. He attended Mt. Morris college for some time. In 1893 he entered Carthage seminary at Carthage, Ill., from which institution he graduated in 1896. He entered the Wittenberg Theological seminary at Springfield, Ohio, soon after, where he continued his studies for two years, but, before completing the full course of studies at the seminary, he went to Germany to attend a course of lectures in the theological department of the universities of Berlin and Leipsic. After completing his theological course he returned to this country and entered the ministry. The first charge served was that of First Trinity, Grand Island, Neb., from this place he was called to Benitice, Neb. He was laboring here when the Christ's Evangelical Lutheran church of this city, invited him to visit the congregation. He was so much general satisfaction that a congregational meeting and call and an unanimous call was given him. After due consideration the call has been accepted, and he will enter upon his duties at once. Mr. Motschman is a young man with a future before him full of promise. The congregation of Christ's Evangelical Lutheran church, which he takes charge of, worships in a neat chapel, corner of Jefferson and Webster streets. The congregation is only six years old. It held its services some three years in the City Y. M. C. A. hall, and has occupied its own chapel since. Rev. Motschman follows the Rev. A. A. Handley, who resigned last summer. Since that time the pastorate has been vacant.

The Steamers Chester and Manitoba Leave Newstead, Carrying Soldiers to Occupy the Island.

WASHINGTON, Dec. 1.—Major General Lee, commanding at Newstead, has telegraphed the war department as follows respecting the departure of the transports Manitoba and Chester today with troops aboard for Cuba:

"Manitoba with General Snyder and the Fourth Tennessee cleared here at 8:45 this morning. Chester with the Fifteenth infantry left her anchorage, six miles below the city, about the same hour and probably now on top of the sea sailing for Matanzas. We might have been at the bottom of it if she had gone out the day she started. Panama is still here."

WILL CLOSE MILLS.

The New Tin Plate Trust Will Restrict Production.

It is understood that the mills absorbed will be transferred to the new concern December 15th and that orders have already been issued closing down many mills a week or ten days prior to that date. Prices on tin plate have been materially advanced within the past week.

MAKE A TEST CASE.

Suit Filed Against the Wayne Knitting Mills.

Imported Laborers Allege Breach of Contract.

They Will Try to Recover Damages in Court.

Assert They Were Brought Here Under Contract and Have Been Discharged —Other Court News.

P. E. Colerick and George Cummorow late this afternoon filed two suits against the Wayne Knitting Mills in which they ask for $1,000 damages for Clemens Kohlsdaef and Max Posen.

The complaints allege that in the month of August, this year, Carl Schlatter, representing the Wayne Knitting Mills, went to Germany and hired Kohlsdaef and Posen to come to Fort Wayne and operate machines, promising to pay their fare to America and give them wages of from $12 to $15 per week. A daughter of Kohlsdaef came with her father and was given employment.

The men arrived here on August 13 and were put to work. In little more than a week they were discharged and the complaint says the management of the knitting mills offered each $6 in full payment for their labor.

It further alleges that the proprietors of the knitting mills declined to pay the fare of the men back to Germany, although they had promised to do so should they at any time become dissatisfied with their jobs.

The suits are brought to recover the amounts of wages and expenses and damages in the sum of $1,000. Mr. Colerick says that if the plaintiffs are successful in the cases several more may be filed.

KEELY'S WILL.

The Motor Inventor Says Nothing About His Widow.

PHILADELPHIA, Pa., Dec. 1.—The will of the late John W. Keely, the inventor, was admitted to probate today. It bequeaths the entire estate, which has a value of about $10,000, to the widow and also appoints her executrix.

No reference is made in the will to the mysterious motor upon which Keely is said to have been working for so many years. The absence of mention of the motor in the will was a disappointment to the stockholders of the Keely Motor company.

They must now await the pleasure of Mrs. Keely for an explanation of the motor, there being generally entertained a belief that the inventor imparted to his wife information of the mystery of which will be of value to the motor company.

SPAIN is being confronted by the friendly assurances of the powers that she is better off without islands and colonies and navies and such things.

A PHYSICIAN of Marseilles has discovered a serum which he claims is an antidote for snake-bite. This agent is tardy with his discovery. There is not a colonel in Kentucky who has not known and a thousand times applied the only snake-bite specific know to science.

THE Beveridge senatorial boom has more the appearance of a course of training for the brilliant young Indianapolis lawyer to succeed Senator Fairbanks than a genuine effort to elect him as Turpie's successor. Politicians do not imagine that it will be possible to elect a second Indianapolis man to the senate.

THE Banner, an independent newspaper published at Hudson, says: "Jimmie Robinson is a runner," and adds: "A Hudson democrat nominates him for governor in 1900." To this the Angola Herald subjoins this comment: "If Jimmie could lead his party in the state as he has in this congressional district, he'd land high and dry. Who knows what is in store for our representative."

IF THE report is true that the Emperor Menelik, of Abyssinia, is moving with an army of 100,000 men toward the Bahr el-Ghazal country in Africa it may mean a lively time for the British-Egyptians now in the Soudan. Those Abyssinians are famous fighting men, and if they are bent on making trouble there will be a particularly hot time in that section of the tropics.

THE Cook county grand jury has just returned a huge grist of indictments against gamblers, saloon keepers, keepers of disorderly houses, operators of slot-machines and the like in Chicago. Prosecutions will follow and if it is possible to prevent the gambling element of that city from packing all the juries there should be a fair percentage of convictions. This is a suggestion for Fort Wayne. Prosecutor Bell is active and the grand jury can do what the mayor will not do toward the suppression of gambling and that kind of prosecution can be made so costly to violators of the law that even the enormous profits of the lawless business cannot keep the heads of the gamblers above water.

AN effort will be made by persons interested in lake transportation to have the Anglo-American commission, now holding its sessions in Washington, to take up the project for a canal joining the great lakes and the Atlantic. This project has been favorably reported upon by a deputy waterway commission authorized by congress and appointed by the president. Before this established the practicability of the canal, the present movement contemplates the devising by the Anglo-American commission of a plan of joint action by which work will be actually begun. The proposed route would be by way of the St. Lawrence river and Lake Champlain, a cut of twenty-nine miles being sufficient, it is said, for that link in the canal. Another cut of twenty-four miles would carry the canal to the Hudson river, thus connecting the shipping of Chicago and Duluth with the head of the lake, Welland canal, St. Lawrence river, Lake Champlain and Hudson river. The projectors of this movement say the cut from the St. Lawrence to Lake Champlain can be made for three or four millions, as the topography is most favorable for canal digging.

THERE is something grotesque in the disruption of the "United States of Central America," recently formed by a coalition of Nicaragua, Honduras and Salvador. The federal organizers have formally declared the union dissolved. This was brought about by the refusal of the troops of Honduras to assist in the suppression of an uprising in Salvador designed to defeat the republic's intended juisture to the federation. That the republics of Central America, never without internal dissensions and never at peace among themselves, could so far forego the pastime of revolution, fighting, usurping and killing as to successfully create an amalgamated state, no one and least of all themselves has ever believed. To add picturesqueness to the sudden collapse of the coalition the dispatches announce that General Regalado, chief of the revolution-ary movement in Salvador, has usurped the presidency and proclaimed himself the head of the republic. Gutierrez, the deposed president of Salvador, is absent from the seat of government, which partly accounts for the success of the revolution. When he returns it is likely he will oust Regalado. Revolutions and usurpations are as common as bull-fights in Central America and have a sort of standing as the national sport.

AMONG THE LODGES.

The Elks' Charity Minstrels to be Given December 16.

Fifty Performers—Memorial Services—Happenings in Fraternal Circles the Past Week.

The event of the month will be the charity minstrels to be given by the Fort Wayne Elks at the lodge auditorium on Friday evening, December 16th. Manager Heilbronner, under whose skillful hand the affairs are to be handled, says the line, and there will be fifty performers and the program of specialties and general features will be replete enough to satisfy the most exacting critic. For an amateur performance it will be simply "worth a fight." The best of it is, the Elks themselves pay the freight and the audience will not be charged admission. No Elk will be allowed to act unless he first deposits a $5 bill. The $250 raised in this manner is to go to the local charitable institutions and to the Daily News Christmas fund. The public will be invited by special invitation. The members will arrange to give their brother acting Elks a social session and banquet after the performance, which affair will be conducted on a broad plane of congeniality. At this session there will be no fines. Mr. Heilbroner expects to have his committees appointed and the program completed in a few days.

ELKS' MEMORIAL.

The Elks will observe the annual memorial day for departed brothers by holding appropriate services at Masonic Temple next Sunday evening. The program will be as follows:

WHAT THE POOR COST.

Indiana Expended $372,000 and Relieved 15,000 People During the Year 1898.

For the first time in the history of their organization the state board of charities have received reports from all the township trustees of the state, covering the business done by these officials during the past year. The following statement, issued by the board yesterday, is therefore the first complete report concerning expenditures for charities ever prepared in the state. In dealing with the statistics the state board makes use of the "out-door poor relief" in order to distinguish the assistance given to families and persons living in their homes from that extended to inmates of institutions.

The total number of people aided during the year was 73,119, and the township trustees distributed poor relief to the amount of $375,206.92. Last year's report showed that 84,325 were aided at a cost of $398,162.87. This shows a decrease of 7,116 persons who were recipients of aid, and a lessening in expenditure of $18,136.78. The necessary expenses imposed upon the township trustees by reason of the truancy law is a new feature of the expenditure given children in this state, in order that they might attend school amounted to $15,805, a large part of which was borne by township trustees. From what is known of the unreported facts of last year it is supposed that the sum named in the reports for that period would amount to $40,000. The total saving will amount to nearly $6,000, which the state board believes will more that pay the entire expense of enforcing the truancy law in this state.

The figures given for last year show that one person in twenty-nine throughout the state receive relief, and that the average amount of aid given to each person was $5.13. This help was given 34,598 males and 39,610 females. Of the males 14,883 were above the age of twenty-one years. Aid was given to 16,015 families. Of those helped 3,380 were given "temporary" assistance, lasting for less than three months. A large number of those assisted received aid for more than a temporary period; 32,739 were aided three months or more at an expense of $388,319.52. Assistance was given to 70,442 white and to 2,676 colored persons. The occupation of 13,206 of those helped was given in the reports to the board, and of this number 8,417 were laborers, as distinguished from farmers, skilled tradesmen, clerks and office employes and the professions.

LOSS SETTLED.

P. A. Randall and Insurance Companies Agree.

This morning the insurance companies and P. A. Randall came to an agreement on the loss sustained by the latter on his buildings occupied by the City Trucking company. A force of men has already been put to work on the reconstruction of the buildings, which will be erected on a larger scale than before.

OTHER ADJUSTMENTS.

Insurance men yesterday adjusted the loss in the Fenner & Martin plumbing shop, which was damaged by fire Sunday morning, November 20th. The loss was fixed at $2,075 on the stock and $675 on the building, and these amounts were satisfactory to the parties concerned. The checks for the loss will be turned over by James E. Graham.

C. B. Fitch will go to Jay county today to adjust a fire loss for the Queen Insurance company of America. It is an important mission and one which Fort Wayne agents have not been often called upon to undertake.

NORTHERN INDIANA NOTES.

At Goshen little Fannie Garrett was kidnaped with on her way to school.

A. C. Haidell is now postmaster at the first paid only republican clerk Wells county ever had.

South Bend wants a union railway station and agitation with that object in view has begun.

A large opossum was killed Wednesday morning by Harry North on a farm a short distance from Bluffton.

The Jack Sullivan road-house, near the Soldiers' home, in Grant county, was accidentally destroyed by fire.

The business men of Goshen held a meeting lately to kill the ticket scheme in vogue with business men of that place. It was proving an injury to their trade.

Joseph Marks a saloonist of Rastport, near Michigan City, was almost killed at a dance Monday night. It is said a half dozen men were implicated in the affair and that the victim may die.

A reconnaissance has been filed with the auditor of Wells county against Wilson, the Ossian man who wants to start a saloon in that town Out of the 937 voters in Jefferson township the signatures of 423 are on the remonstrance.

At Bourbon, John Miller's barn, with thirty-five head of cattle, thirteen horses and many hogs, burned. The barn was insured until recently when Miller joined the Salvos and thought Providence would see to it that he did not suffer loss.

The authorities are anxious to learn the whereabouts of May Nancy Hobert or Antoine Nance Hebert. They were born in New Orleans and some years ago located in northern Indiana. An estate has been left them if they can be located.

The state bank of Jonesboro has gone into voluntary liquidation, notice being posted that no money will be received for deposit, and that all depositors will be paid at once. The bank will remain open for sixty days in order to close up its affairs.

Two deaths of old settlers occurred Tuesday in one neighborhood south of Huntington. Mrs. Bittenhouse, sixty-six years old, and Mrs. Cornelius Smuck, seventy years old, lived on adjoining farms for more than forty years, and both died on the same day.

A stream of water struck Dr. Fertich, of Dunkirk, while he was assisting in subduing a fire, and, thinking the stream purposely thrown on him, he attempted to draw a revolver. Patrolman Marion Payton interfered, and the doctor was badly beaten by the patrolman's baton.

Edward Keeman, a farmer residing south of Hebron, accidentally shot himself in the left leg Saturday afternoon while hunting in the Kankakee swamp region. While going across a field he struck the barrel of his gun against a stump and the piece was discharged, the contents striking him above the knee. The arm had to be amputated.

Several days ago Max Beenstein, of Marion, was made defendant in a $10,000 damage suit for alleged alienation of the affections of Mrs. F. M. Gillen. He appealed to the grand jury and Mrs. Gillen and George M. Moore, attorney, were placed under bonds on an indictment, alleging attempted blackmail.

Among the suits already filed for trial at the next term of the DeKalb circuit court is one against Mrs. H. C. Cothenry and Lon Yarde, administrators of the Cothenry estate, by Cothenry's boodsmen to recover the amount they were compelled to pay into the DeKalb county treasury as a result of his defalcations. The suit promises to be warmly contested and very interesting when it comes to trial.

Members of the large and wealthy German Evangelical church, at Urbana, Wabash county, are involved in a bitter quarrel over the introduction of the doctrine of sanctification in the congregation. One minister, Rev. Skoggs, has been removed because he refused to preach the doctrine, which is heretical to the Evangelical faith. A petition has just been sent in demanding the removal of Rev. Zeshiel because he savagely attacks sanctification as hostile to the faith. The seeds of discension were sown by a band of roaming missionaries styling themselves "the saints," who held camp meetings in the neighborhood.

While Meredith and Benjamin Elmer have been the pilots of the Daily and Weekly Times, of Wabash, and it will be conducted in the future as a free silver organ. The Times is owned by Nelson G. Hunter, and in 1896 it lolled the nomination of Mr. Bryan and advocated the Palmer and Buckner ticket. After the defection of the Times the Star was established by local democrats, who stood by the Chicago nominee. Its publication continues.

A crusade against the liquor dealers of Goshen has been started by the church people and other good citizens of that town and half the preachers last Sunday preached from texts bearing on temperance and Sunday observance. A Goshen-ite remarked to Seventieth century Jay on Thursday that they and the good people were not to thinking. The city marshal has notified all saloon keepers that they must comply with the law by closing the doors and pulling up the screens on Sunday.

Wednesday, at Hanna, a small station on the Pennsylvania railroad, about fifteen miles east of Valparaiso, Henry Edwards committed suicide by shooting himself. Despondency and remorse moved him to the rash act. Last Sunday, while hunting with William Sheffer, of Hanna, Edwards accidentally shot and killed his companion, who died in his arms. Since then Edwards had been in a state of deep depression and Tuesday made an effort to take his life, but was prevented. Wednesday morning Edwards arose early and taking the gun with which he had killed Sheffer retired to a secluded spot and placing the muzzle of the gun in his mouth literally blew his head off.

Barrett Indicted for Murder.

ANDERSON, Ind., Dec. 1.—Indictments have been returned against Jesse D. Barrett for the murder of Frank McFall. Barrett went to Alexandria for the purpose of killing his man and shot him in his door. It is said that Barrett is insane on religion and thinks he is personally directed by God, receiving his instructions nightly, and that he committed the murder under this hallucination.

Osborn's Pay Reduced.

SAN FRANCISCO, Dec. 1.—The ship owners' association, which controls coastwise shipping, has ordered a reduction of $5 a month in wages for all classes of seamen. The scale is the lowest ever paid seamen on this coast.

The Amicus club was entertained this afternoon by Mrs. Delbert Edmunds. Papers on Japan, Holland, Switzerland and China were read.

CONSULTING A WOMAN.

Mrs. Pinkham's Advice Inspires Confidence and Hope.

Examination of a sick physician is a logical trial to a delicately organized woman.

She puts it off as long as she can, and is only driven to it by fear of cancer, polypus, or some dreadful ill.

Most frequently such a woman leaves a physician's office before she has undergone a critical examination with animpression more or less of disrespectful treatment.

This condition of the mind destroys the effect of advice and shows more reason than better. In consulting Mrs. Pinkham no hesitation need be felt, the story is told to a woman and is wholly confidential. Mrs. Pinkham's address is Lynn, Mass., she will ask questions and give advice without charge.

Her intimate knowledge of women's troubles makes her letter of advice a well-spring of hope, and her wide experience and skill point the way to health.

"I suffered with ovarian trouble for seven years, and no doctor knew what was the matter with me. I had given up all hope, when I was advised to try Lydia E. Pinkham's Vegetable Compound. I did so, and before I had taken two bottles of it I felt relief. I continued its use and was entirely cured."—Miss JOHN FERNEAU, 20 N. Woodberry Ave., Baltimore, Md.

The above letter from Mrs. Ferneau is only one of thousands.

Health is Wealth.

SHOP AND RAIL.

More Concerning the Big Steel Rail Deal.

Second Largest Transaction in the History of this Country—An Old Shopman Believes in a Life of Ease.

Concerning the big deal in steel rails which was mentioned a few days ago in these columns, the Iron Trade Review says: "Excepting the memorable break in the rail pool in February of last year, no such tonnage of steel rail sales has been closed in a single week as that just booked by the manufacturers. It includes 60,000 tons to the Illinois Central, 75,000 tons to the Chicago and Northwestern, 55,000 tons to the St. Paul, 35,000 tons to the Burlington and large orders to eastern and central systems. What has been booked and what is practically closed amounts to more than 500,000 tons, of which the bulk has been taken by Chicago and Pittsburg. The failure of the rail manufacturers to agree upon the selling company scheme was followed by a conference of the Carnegie Steel company, the Illinois Steel company and the Colorado Fuel and Iron company, as noted last week. An arrangement resulted which promises to have better holding powers than the gentlemen's agreement in force previous to September. The prices fixed are $17 Pittsburg, $18 Chicago and $20 Pueblo."

Got Tickets Under False Pretenses.

A man dressed in the uniform of a soldier tried to get a half-fare ticket at the Pennsylvania ticket office from Cincinnati to Baltimore a few days ago and came to grief. A half fare rate is given by the railroads to soldiers going home on furlough. The people at the Pennsylvania ticket office did not think the man who wanted the ticket and presented his furlough, which was issued in the name of R. H. Williamson, was all right, and they sent for Captain Adams, the recruiting officer here, who could not say positively whether the man was really a soldier or a fraud. At any rate, the man had on his person furloughs issued in the names of R. H. Williamson, Second cavalry; Charles Rose, Second cavalry; George Thompson and William Rose, Tenth infantry, and two blank furloughs. The railroad people confiscated the furlough papers. The man admitted to a Pennsylvania detective that he had made more than $100 in Chicago getting tickets and disposing of them.

A Fireman's Frightful Experience.

A snake story is a little out of season, but THE SENTINEL reporter cannot refrain from repeating one that was related to him this morning. Dr. J. Slon Smith, of the Fort Wayne Iron works, this morning bought a large toy snake and took it to the works, where he placed it in front of the furnace during the absence of the fireman. He attached a thin thread to the snake's head, passed the cord over an overhead beam and then, with the other end in his hand, hid in the coal-bin. Pretty soon the fireman returned, but failed to see the snake until nearly upon it. Dr. Smith pulled the string and the reptile raised up as if to make an attack. As the same instant the fireman gave a yell that would make a Comanche turn green with envy and turned to flee. But the thread had caught upon the lace hooks of his shoe and the snake went along, flopping about his legs and driving him nearly wild with fright. Dr. Smith came to the fellow's rescue, but not until all the shop force had been attracted to the scene and were ready to participate in the laugh that followed. It was very funny to all, save the fireman.

Dynamo Shipments.

The Electric corporation today shipped a big dynamo to Wilkesbarre and in a few days will make an important shipment to Lancaster, Pa. Mr. Ruth the manager of the company for whom two large dynamos have just been built, is here today to witness a test of them. Other dynamos are being made ready to ship to other points as rapidly as possible, consistent with good work.

A Corpse Found.

Some Pennsylvania section men found a corpse of a man lying by the side of the railway tracks three and one-half miles west of Van Wert this morning. Coroner Cook was summoned, and after viewing the remains, had them removed to Van Wert, where they were identified as those of Frank McCoy, a citizen of that place. McCoy left Van Wert yesterday morning on a hunting expedition and it is supposed that he was killed by the cars last night while walking on the tracks or by falling from the train. He was a married man and, besides a widow, a son survives him.

Short of Rolling Stock.

The Pennsylvania and the Nickel Plate roads are short of power and cars. Yesterday the former road had six trains that were waiting for engines to move them, notwithstanding the fact that several engines from other branches where business is not so heavy were recently sent here to help out in the rush. Every engine belonging to the Nickel Plate is also in use and the crews are given to understand that they cannot lay off only in case of death, sickness to themselves or members of their family.

Henry Hille Resigns.

Last night, at the close of working hours, when Henry Hille picked up his dinner bucket and started for home, it was with the intention of never returning to the Wabash shops in the capacity of an employe, for he had given notice to the foreman that he wished to retire from the position that he has so long and so faithfully filled. Mr. Hille is a native of Germany. He left his home in that country as soon as he arrived at man's estate and came direct to this city. He applied for employment at the Wabash shops and was given a position as helper and in that capacity he worked continually thirty-two years and six months, with the exception of three months that he spent in Germany about three years ago. He has lived a frugal life and has a competency sufficient to keep him in ease the remaining years of his life.

As a step toward reorganization the receivers of the Baltimore and Ohio yesterday took up $5,958,000 of their certificates issued May 1, 1896.

W. E. Hunter, claim agent of the Pittsburg, returned to duty this morning. He had been visiting relatives and old friends in Richmond for a week.

This morning, while engaged in handling some lumber, Fred Rogn slipped and severely sprained his back. He is employed in the Pittsburg planing mills.

Within the next six months the third rail on the Denver and Rio Grande for several hundred miles will be taken up, and only broad-gauge equipment used.

Superintendent G. L. Potter left for Pittsburg last evening and Chief Clerk J. T. Leary, of the motive power department, returned home from the east last night.

Machinist W. O. Bassett, of the Pittsburg shops, is kept at home by the illness of Mrs. Bassett, who was taken worse yesterday. The lady has been ailing for the past year.

George M. Roberts, who has for many years represented the Pennsylvania lines as passenger agent in New England, is thought to be fatally ill at his home in Malden, Mass.

The convention of the Ohio Federation of Labor will be held at Zanesville next week, and one of the important matters to come up for consideration will be the employment of convict labor so as to least interfere with free labor.

On January 1 Assistant Traffic Manager Russell, of the Santa Fe, will transfer his office from Chicago to San Francisco. The change is looked upon in railroad circles as significant.

Yesterday's Indianapolis News contained the following item: "The town council at Sheridan met at midnight and awarded a waterworks franchise to Mr. Geiger, of Fort Wayne."

In the year ending June 30 wages on the roads of Iowa increased $923,449; during the year 32,540 cars were equipped with air brakes and automatic couplers, and thirty-seven miles of new railway was built.

F. Henkel, a car builder, who had a shin injured three weeks ago, is not getting along very well. It seems that the bone was injured and the accident, which at first appeared a mere trifle, is proving quite a serious affair.

General Manager C. M. Hays, of the Grand Trunk railroad system, says there is no truth in the story that it has made arrangements with Dr. Seward Webb for a lease of that part of the road situated between Massena and Howick.

Frank Funkhauser, a car builder in the east shops, was struck on the cheek with a wrench handle and the bone laid bare for an inch or more. He was tightening a bolt when the wrench slipped off the nut with the foregoing result.

The Indiana and Lake Michigan division of the Vandalia lines will be sold at foreclosure sale on December 8. It is forty miles long, extending from South Bend to St. Joseph, and since operated has rarely paid its operating expenses.

The last of the 108 ore cars was turned out of the Pittsburg shops yesterday and the car builders are now devoting their attention to the order for gondolas. These ore cars are of 100,000 pounds capacity, the largest cars of their kind ever built west of the Alleghenys.

Master Mechanic G. S. McKee, of the Wabash, did not arrive last evening as expected, but it is understood he will come this evening, on No. 21, and will assume the duties of the office tomorrow morning. Mr. Doebler left last night for Springfield, his new field of labor.

Conductor Stack, of the Big Four, who fell under his train and was cut in two at Columbus, Ohio, Monday morning, had been in service on the Cleveland and Columbus divisions of the Big Four for over thirty years. He stepped from his train before it had stopped and fell under the wheels.

Engine 205, one of the large passenger engines of the Big Four, on Monday, hauling nine cars, ran from Indianapolis 95 Terre Haute, seventy-three miles, in eighty minutes, making two stops and running slow in the city limits at Indianapolis and at Terre Haute. This is the quickest time ever made by a train from Indianapolis to Terre Haute.

The consolidation of the Lake Shore shops goes merrily on, much to the grief of some of the towns affected. Today the forty men employed in the shops at Norfolk, Ohio, were ordered to move, half of them to Air Line Junction and the other half to Cleveland. A report is now in circulation that the shops at Adrian, Mich., will soon be closed and the workmen sent to the Air Line shops also.

On Saturday James Gray, a brakeman on the Lake Shore road, having received the $350,000 to which he was said to have fallen heir, notified the trainmaster that he guessed he would not go out on his regular run. In talking with an official of the road about the matter he is quoted as saying that he intended to invest a portion of the money in stock of the road he had worked for so many years.

Women and children are causing considerable annoyance to the officers and yard men of the various roads in the city by going about and gathering up the bits of coal that fall from cars and engines. At dusk yesterday three little girls were discovered thus engaged in the Nickel Plate yards and were sent home. It is not the value of the fuel these little ones get that makes the practice so objectionable; it is the danger they are exposed to while gathering it. If an accident should happen to the children, the yard men would be censured for allowing them to come there.

Rites and Secret Organizations as Not Removed.

Bishop Rademacher Addresses a Letter to the Catholic Record Making a Formal Denial.

The Rt. Rev. Bishop Rademacher has addressed a letter to the Catholic Record, of Laporte, in which he makes a formal denial of the report that a decree had been issued from Rome, removing the ban placed on secret organizations from membership in which Catholics are barred because of religious restrictions. The report had been given wide publicity and had aroused much interest. Bishop Rademacher says that the denial to the report is made by the Most Reverend Apostolic Delegate and Archbishop Elder, of Cincinnati.

MAY DROP FREE SILVER.

Indiana Democrats said to be Talking of Deserting Mr. Bryan.

INDIANAPOLIS, Ind., Dec. 1.—A story that the democrats of this state were about to abandon free silver and W. J. Bryan caused the ways and means committee of the silver party to send Allen W. Clark from Chicago into the state to investigate the report.

It is said that while at West Baden Richard Croker, of New York, met some of the influential men in the democratic party of the state and intimated that if the state would drop Bryan and his principles and join hands with New York, Indiana might have second place on the national ticket in 1900.

Leon O. Bailey, recently defeated for congress in this district, is said to have carried on the negotiations between Croker and the representatives of the democratic organization. The gold democrats express a willingness to return whenever Bryan and free coinage are dropped.

Health of Troops is Better.

WASHINGTON, Dec. 1.—A great improvement in the health of the army has taken place within the last two months, as shown by the last reports to the surgeon general from the field and general hospitals. The hospitals at Chickamauga Park have been emptied and abandoned. The same is true of the division field hospitals at Camp Hamilton, Lexington, Ky., and Jacksonville, Fla.

ITS WEIGHT IN GOLD

A New Discovery Which is Worth That Much

To Anyone Afflicted With Piles.

The Pyramid Pile Cure, the new, painless remedy which has been so remarkably successful in curing every form of piles and rectal diseases, has recently been placed on sale at druggists and it is safe to say that when its extraordinary merit becomes fully known, there will be no such thing as surgical operations for the cure of this obnoxious and common trouble.

Mrs. M. C. Brinkly, of 501 Mississippi street, Indianapolis, Ind., says: "I had been a terrible sufferer from piles for fifteen years and no remedies benefitted me, until I saw an advertisement of the Pyramid Pile Cure; I got a package, also a package of Pyramid Pills and used both according to directions. I was astonished at the immediate relief obtained and now I honestly believe the Pyramid to be the only certain cure for piles."

That you may realize how bad I was, I will say that I was confined to my bed and kept before the college physicians here, who said my case was a new one to them and wanted seven or eight hundred dollars to undertake a cure; the great pain had brought on a rupture, and I know an operation would be death to me on account of blood poisoning. Nearly every one here knows of my terrible suffering from piles, and I feel that I cannot praise the Pyramid Pile Cure enough, and the Pyramid Pills also. My husband will join me in highly recommending the Pyramid. My daughter was cured by one box only. For several years I weighed but about 90 pounds; now I weigh 150 and feel in perfect health.

This seems to be the universal testimony of every sufferer from piles who have ever tried the Pyramid; it is the safest, most painless pile cure yet discovered; contains no opiate, morphine, cocaine or any poisonous ingredient whatever, has no weakening, healing effect from the first application, and the moderate price places it within the reach of everyone needing treatment. The Pyramid Pile Cure is sold by druggists at 50 cents and $1 per package and the Pyramid Pills at 25 cents per box.

Send to Pyramid Co., Marshall, Mich., for free book on cause and cure of piles.

Stocking Cough Cured.

Ramon's Liver Pills & Tonic Pellets have permanently cured me of a troublesome disease that I had in my back, stomach and bowels, which was accompanied by a hacking cough. I was for a long time unable to get up when I was down; but now I am as well as anybody. I believe I would have been in my grave if I had not used them. I have sold them for the last ten years. My customers will have no other. W. C. Embry, Embry, Ga. nov1

Epidemiology Elucidated.

"About a year ago," remarks a people, "the consumption of one of our cows far exceeded the limit adopted, after long and serious debate, the individual consumption cups. The older members strenuously disapproved of the innovation, and even went so far as to say that 'the Lord knew all about microbes, but when He was on earth the large cup was used.' However, the younger members, led by an aspiring young physician, triumphed, and the tiny cups made their appearance. Last Sunday happened to be the communion day, and now comes the tragic part of the tale, let it occur not in public. The cups were collected, the few drops of wine left in them emptied into a pan, and, horror of horrors! the dregs collectively poured back into the bottle, microbes and all. The question is, can this be a plan by which the old folks continue to have their own way and exchange their microbes, or is it simply economy?"--Philadelphia Record.

A Profane Nonchalance.

"I don't care anything for your nonchalance," remarked Judge Andy to Minnie Coleman, a woman who is always troubling the police with her perambulations on the streets after dark, "but you can't mix your indifference with public profanity. The officer says you walked down the street saying you don't care for anybody or anything and you profized all your 'don't cares' with a great big D." "Judge Andy, I was only feeling tired oh de world," was Minnie's reply. "There are times, you know, when de best oh us gets blue and de ole airth looks all oh its pleasures. So last night I was in one oh dem humors and maybe I did cuss a little." "You next time you feel like that," advised Judge Andy, "you go off into the woods and have it out all by yourself. I will sent you $5.55 this time for using the public streets as an arena to waste your surplus execration."--Atlanta Constitution.

Curious Transference of Heat.

A correspondent of Nature, who is associated with the observatory at Toulouse, calls attention to a very able popular phenomenon, the scientific explanation of which he seeks. Take a bar of iron in the hand by one end and plunge the other end in the fire, and long it strongly, but not so much that the hand cannot retain its hold. Then plunge the heated end in a pail of cold water. Immediately the end held by the hand becomes cold, so that it is impossible to retain it in the fingers. This phenomenon, said by the correspondent to be familiar to workmen in iron, is ascribed by them to some mysterious action which they suppose the sudden cold to exert upon the heat contained in the iron, which is thus driven to the opposite extremity.

North Pole and South Pole.

It has been shown that, while Nansen's observations prove that the north polar region is a great ocean cavity, nearly two miles deep, the south polar region, on the contrary, is apparently a vast solid mass of land, surrounded by a belt of water about two miles in depth. The area of the south polar continent is estimated to be about 4,000,000 square miles, 1,000,000 more than that of the United States, excluding Alaska.

Don't you remember what a task the bath was when you were a child. Remember that patient mother? Perhaps she had several children to put through the process. Every one was whined about it. What a difference now! The bath is easy. The child can take it all alone. No older head needed. It's a real pleasure to bathe in one of our tubs.
